Keeping you Safe and Secure

Your safety comes first

At Southern Sun Hotels we care about your safety and about the security of your possessions.

We would like to encourage you to be safety conscious, wherever you are on your travels.

Clearly marked emergency exits are located on each floor. The evacuation exit plan at the back of your room door identifies your location and the emergency exits.

In the event of heavy smoke, which may make it difficult to locate these exits, please count the number of doorways between your door and the emergency exit.

Fire Emergency

The hotel is equipped with a sophisticated fire alarm and smoke detection system that monitors all parts of the building continuously.

There are fire instruction notices on all bedroom doors. May we suggest that you take some time to read the instructions in order to have an understanding of where your room is located in relation to the nearest available fire exit.

If you discover a fire

Press the Emergency button on the nearest internal phone and clearly state the location of the fire, giving the room number/floor number nearest to the fire situation as a reference.

OR

Activate one of the fire alarm systems, situated directly next to the emergency fire exit, lift lobby and service store, by pulling down on one of the units. An alarm is automatically relayed to the fire panel, which pinpoints the location. A fire alarm will then be activated.

Do not fight any fires. Please remain calm and leave the area and the building using the nearest fire exit. Proceed to the designated assembly area, which is the front of the hotel.

Keeping you Safe and Secure

What to do when you hear the alarm

An initial fire alert alarm will ring for a few seconds.

Remain calm – the hotel's fire team will investigate and you will be advised via intercom (public address system) of the outcome of the investigation.

Evacuation

If, after the initial alarm and investigation by the hotel's fire team, there is a need to evacuate the building, the alarm will ring continuously.

Remain calm. If the door handle is not hot, open it carefully but close it immediately after leaving your room.

In the event of smoke in the corridor, try to stay as low to the ground as possible.

You must leave the building immediately using the nearest fire exit. Do not use or wait for any hotel lift as they are automatically re-called to ground floor level and will not be operating. On leaving the building move away quickly and proceed to the designated assembly area in front of the hotel, where hotel management will conduct a roll call.

If you must stay in your room:

- *Do not panic.*
- *Turn off the air-conditioning.*
- *Report your location by pressing the Emergency button on your room telephone.*
- *Fill bathtub with water.*
- *Place wet towels and sheets around the door seals and air vents, use the waste basket by the work desk to bail water from the bath tub.*
- *Remove drapes from windows.*
- *If smoke still enters your room, make a tent over your head with the blanket located in your room cupboard.*
